SUBJECT INDEX*

A

Abdomen
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44
Management of pancreaticoduodenal artery aneurysms presenting as catastrophic intraabdominal bleeding (Neschis et al). 1998;123:8-12
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)

Abdominal injuries
Delayed splenic hematoma: an injury in evolution (DiGiacomo et al). 1998;123:478-9 (Brief clin. rep.)
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Successful treatment of delayed splenic rupture with splenic artery embolization (Firstenberg et al). 1998;123:584-6 (Brief clin. rep.)

Abdominal muscles
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4

Abdominal neoplasms
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Abnormalities
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)

Abscess
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Academic medical centers
The effects of programmatic change on resident motivation (Chalabian and Bremner). 1998;123:511-7

Acetylcholine
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95

Acknowledgment
Acknowledgment (Ballinger and Zuidema). 1998;123:118

Acquired immunodeficiency syndrome
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)

Acute phase proteins
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8

Adenocarcinoma
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Adenoma
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Adenomatous polyposis coli
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Adolescence
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Adrenal gland hyperfunction
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50

Adrenal glands
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Adrenalectomy
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Adrenergic beta receptor blockaders
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Adrenocorticotropic hormone
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50

Adriamycin; *see* Doxorubicin

Age factors
Management of continuous anastomosis of pancreatic duct

*January, pp. 1-118; February, pp. 119-250; March, pp. 251-370; April, pp. 371-484; May, pp. 485-602; June, pp. 603-764.

Age factors—cont'd
and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Aged
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Agglutinins
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

AIDS; *see* **Acquired immunodeficiency syndrome**

Alanine
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9

Alanine aminotransferase
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66

Albumin
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7

Alcoholism
Effect of alcohol abuse on polyamine metabolism in hepatocellular carcinoma and noncancerous hepatic tissue (Kubo et al). 1998;123:205-11
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)

Alkaline phosphatase
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)

Allograft; *see* **Transplantation, homologous**

Alteplase
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44

Ambulatory surgery
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Amino acids
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95

Amylases
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Analgesia
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Anastomosis, surgical
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)
Repair of type III and type IV thoracoabdominal aortic aneurysms by using a long beveled anastomosis: a description of technique (Eldrup-Jorgensen and Bredenberg). 1998;123:351-5 (Surg. tech.)
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)

Anemia, hemolytic, autoimmune
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Anesthesia
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Aneurysm
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Management of pancreaticoduodenal artery aneurysms presenting as catastrophic intraabdominal bleeding (Neschis et al). 1998;123:8-12
Nikolai S. Korotkov: a story of an unknown surgeon with an immortal name (Konstantinov). 1998;123:371-81
Repair of type III and type IV thoracoabdominal aortic aneurysms by using a long beveled anastomosis: a description of technique (Eldrup-Jorgensen and Bredenberg). 1998;123:351-5 (Surg. tech.)

Angiogenesis; *see* **Neovascularization**

Angiography
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Angioplasty
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)

Angioplasty, balloon
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Angiotensin II
Localized versus systemic angiotensin II receptor inhibition of intimal hyperplasia in experimental vein grafts by the specific angiotensin II receptor inhibitor L158,809 (Fulton et al). 1998;123:218-27

Angiotensin-converting enzyme inhibitors
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Animal models; *see* **Disease models, animal**

Ankle-brachial pressure index
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Anoxia
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Antibodies, monoclonal
Calcitonin gene-related peptide and spinal afferents partly

mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Anti-CD18
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Anticoagulants
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4

Antiemetics
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95

Antireflux surgery; *see* **Reflux**

Aortic aneurysm, abdominal
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Repair of type III and type IV thoracoabdominal aortic aneurysms by using a long beveled anastomosis: a description of technique (Eldrup-Jorgensen and Bredenberg). 1998;123:351-5 (Surg. tech.)

Aortofemoral bypass
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33

Arm
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Arterial occlusive diseases
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Arterioportal shunt
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66

Arteriosclerosis
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Arteriovenous anastomosis
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66

Arteriovenous fistula
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Arteriovenous shunt, surgical
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Ascitic fluid
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)

Aspartate aminotransferase
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Aspiration biopsy; *see* **Biopsy, needle**

Atherosclerosis
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Auscultation
Nikolai S. Korotkov: a story of an unknown surgeon with an immortal name (Konstantinov). 1998;123:371-81

Autonomic pathways
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Autotransplantation; *see* **Transplantation, autologous**

Axillary artery
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)

Azygos lobe
Does the mediastinal anatomy complementing azygos lobe facilitate endotracheal balloon rupture of the trachea? (Grismer and Read). 1998;123:243-4 (Brief clin. rep.)

B

Back
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Bacteremia
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Balloon angioplasty; *see* **Angioplasty, balloon**

Balloon dilatation
Does the mediastinal anatomy complementing azygos lobe facilitate endotracheal balloon rupture of the trachea? (Grismer and Read). 1998;123:243-4 (Brief clin. rep.)

Barrett esophagus
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux-test analysis before and late after operation (Csendes et al). 1998;123:645-57

Bile
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72

Bile duct obstruction; *see* **Cholestasis**

Bile ducts
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Biliary atresia
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)

Biliary calculi; *see* **Cholelithiasis**

Biliary tract diseases
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7

Biliary tract neoplasms
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Bilirubin
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66

Biopsy, needle
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90

Bladder
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Bleeding; *see* **Hemorrhage**

Blood circulation
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Profound hypothermic circulatory arrest for giant intracranial aneurysms: low systemic heparinization and heparin-coated circuits (Morishita et al). 1998;123:245-6 (Brief clin. rep.)
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Blood coagulation
Profound hypothermic circulatory arrest for giant intracranial aneurysms: low systemic heparinization and heparin-coated circuits (Morishita et al). 1998;123:245-6 (Brief clin. rep.)

Blood pressure
Nikolai S. Korotkov: a story of an unknown surgeon with an immortal name (Konstantinov). 1998;123:371-81

Blood proteins
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204

Blood vessel prosthesis
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Localized versus systemic angiotensin II receptor inhibition of intimal hyperplasia in experimental vein grafts by the specific angiotensin II receptor inhibitor L158,809 (Fulton et al). 1998;123:218-27
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Blood vessels
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Blunt trauma; *see* **Wounds, nonpenetrating**

Borodin, Alexander P.
The life and death of Professor Alexander P. Borodin: surgeon, chemist, and great musician (Konstantinov). 1998;123:606-16

Bowel, small; *see* **Intestine, small**

Brachiocephalic veins
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Brain dead donors; *see* **Tissue donors**

Breast enlargement; *see* **Mammaplasty**

Breast neoplasms
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Brief clinical reports
Brief clinical reports. 1998;123:102-12, 241-6, 356-70, 475-84, 584-99, 699-718

Bronchial fistula
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)

Bronchoalveolar lavage fluid
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

B10.BR mice; *see* Mice
Burns
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45
Buttocks
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

C

Calcitonin
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)
Calcitonin gene-related peptide
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Calcium
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)
Cannulation; *see* Catheterization
Capillaries
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Capsaicin
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Carbon dioxide
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83
Carboplatin
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Carcinoembryonic antigen
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)
Carcinoma
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)
Carcinoma, hepatocellular; *see* Hepatoma
Carcinoma, medullary
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)
Carcinomatosis; *see* Carcinoma
Cardia
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
Cardiomyopathy, congestive
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)
Cardiopulmonary bypass
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10
Profound hypothermic circulatory arrest for giant intracranial aneurysms: low systemic heparinization and heparin-coated circuits (Morishita et al). 1998;123:245-6 (Brief clin. rep.)
Carolina rinse
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Carotid artery, internal
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Castleman's disease; *see* Giant lymph node hyperplasia
Catecholamines
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Catheterization
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)
Cecum
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Celiac artery
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Celiac ganglion; *see* Ganglia, sympathetic
Cell adhesion molecules
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Cell degranulation
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Cell survival
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Cerebral aneurysm
Profound hypothermic circulatory arrest for giant intracranial aneurysms: low systemic heparinization and heparin-coated circuits (Morishita et al). 1998;123:245-6 (Brief clin. rep.)
Cerebrovascular disorders
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Chemistry
The life and death of Professor Alexander P. Borodin: surgeon, chemist, and great musician (Konstantinov). 1998;123:606-16
Chemotherapy; *see* **Drug therapy**
Chemotherapy, adjuvant
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Chest injuries; *see* **Thoracic injuries**
Chest tubes
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42
Child
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Cholangiocarcinoma
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Cholangiopancreatography
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Cholangioscopy
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6
Cholangitis
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Cholecystectomy
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Cholecystitis
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Choledochal cyst
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Cholelithiasis
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Cholestasis
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)
Cholesterol
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Choristoma
Intrahepatic splenic tissue in a patient with recurrent idiopathic thrombocytopenic purpura (Wekerle et al). 1998;123:596-9 (Brief clin. rep.)
Chylopericardium
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)
Chylothorax
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)
Circulation; *see* **Blood circulation**
Cirrhosis; *see* **Liver cirrhosis**
Cisplatin
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Clostridium perfringens
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Cocaine
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Cognition
The readability of currently used surgical/procedure consent forms in the United States (Hopper et al). 1998;123:496-503
Cold agglutinin disease; *see* **Anemia, hemolytic, autoimmune**
Cold perfusion; *see* **Perfusion**
Collagen
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5

Collateral circulation
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)

Colon
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64

Colonic neoplasms
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Colonic polyps
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Colorectal neoplasms
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9

Colorectal neoplasms, hereditary nonpolyposis
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Colostomy
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64

Common bile duct
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Complement
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204

Comprehension; *see* **Cognition**

Computed tomography; *see* **Tomography, x-ray computed**

Congenital defects; *see* **Abnormalities**

Cooling blanket
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Coronary artery bypass
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Coronary circulation
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9

Coronary vasospasm
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Coronary vessels
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60

Correspondence; *see* **Letters**

Cortisol; *see* **Hydrocortisone**

Cost-benefit analysis
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20 (Editorial)
Cost-effectiveness analysis in surgery (Finlayson and Birkmeyer). 1998;123:151-6

C-reactive protein
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95

Creatinine
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Critical illness
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Crystal deposition disease
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

C3H mice; *see* **Mice**

Cushing's disease
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50

Cyanosis
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Cyclosporine
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60

Cystatins
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Cysts
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Cytokines
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8
Formation of myointimal hyperplasia and cytokine

Cytokines—cont'd
production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E2 influences the recipient immune response (Chung et al). 1998;123:171-80
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88

D

Debridement
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Decision making
Ethics in surgical research (Leffall). 1998;123:603-5 (Research rev.)
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9
Deglutition disorders
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)
Delivery of health care
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20 (Editorial)
Demography
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Denervation
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8
Deoxyribonucleic acid; *see* **DNA**
Dermatomyositis
Adult-onset dermatomyositis with severe gastrointestinal manifestations: case report and review of the literature (Eshraghi et al). 1998;123:356-8 (Brief clin. rep.)
Desmopressin
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50
Dexamethasone
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9
Diabetes mellitus
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Diabetes mellitus, experimental
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20
Diabetes mellitus, insulin-dependent
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Diagnostic imaging
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)
Dialysis
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)
Diarrhea
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Dilated cardiomyopathy; *see* **Cardiomyopathy, congestive**
16,16 Dimethylprostaglandin E_2
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Dinoprostone
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101
Diphenylhydantoin; *see* **Phenytoin**
Diploidy
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Disease models, animal
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et

al). 1998;123:692-8
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

DNA
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Dogs
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Donors; *see* Tissue donors

Dopamine
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Doxorubicin
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Drainage
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Drug synergism
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Drug therapy
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Drug therapy, adjuvant; *see* Chemotherapy, adjuvant

Dumping syndrome
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Duodenal ampulla; *see* Vater's ampulla

Duodenogastric reflux
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57

Duodenostomy
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)

Dysphagia; *see* Deglutition disorders

E

Eating
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27

Edema
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Editorials
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20
Greetings from the new Editors in Chief (Warshaw and Sarr). 1998;123:1

Education, medical
The effects of programmatic change on resident motivation (Chalabian and Bremner). 1998;123:511-7

Educational status
The readability of currently used surgical/procedure consent forms in the United States (Hopper et al). 1998;123:496-503

Eicosanoids
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80

Elderly; *see* Aged

Embolism
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4

Embolization, therapeutic
Management of pancreaticoduodenal artery aneurysms presenting as catastrophic intraabdominal bleeding (Neschis et al). 1998;123:8-12
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Successful treatment of delayed splenic rupture with splenic artery embolization (Firstenberg et al). 1998;123:584-6 (Brief clin. rep.)

Emergency medical services
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7

Emphysema
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)

Endarterectomy, carotid
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40

Endocrine diseases
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7

Endometriosis
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)

Endoscopy
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama

Endoscopy—cont'd
et al). 1998;123:391-7
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Endothelial neoplasms; *see* Neoplasms, glandular and epithelial

Endothelins
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Endothelium
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204

Endothelium, vascular
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95
Shear stress induces transforming growth factor–beta$_1$ release by endothelial cells (Cucina et al). 1998;123:212-7
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Endothelium-derived relaxing factor
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95

Endotoxins
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

End-stage renal disease; *see* Kidney failure, chronic

Epinephrine
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Equipment and supplies
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9

Esophageal neoplasms
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Esophagitis, peptic
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Esophagus
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)

Ethics
Ethics in surgical research (Leffall). 1998;123:603-5 (Research rev.)

Euglycemia
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20

Euthyroid sick syndromes
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7

Experiment; *see* Research

Extracorporeal life support
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10

Extrahepatic jaundice; *see* Cholestasis

Extremities
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

F

Familial colonic polyposis; *see* Adenomatous polyposis coli

Feces
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27

Femoral nerve
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Femoral vein
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

α-Fetoproteins
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Fibrinolysis
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44

Fibroblast growth factor, basic
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9

Fibroblasts
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93

Fingers
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Fistula
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)

FK-506
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Flow cytometry
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304

Fluid balance; *see* **Water-electrolyte balance**

Fluid therapy
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Fluoroscopy
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4

Follow-up studies
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6

Food intake; *see* **Eating**

Foot
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Forms and records control
The readability of currently used surgical/procedure consent forms in the United States (Hopper et al). 1998;123:496-503

Fundoplication
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)

G

Gallbladder
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)

Gallbladder diseases
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Gallbladder neoplasms
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4

Ganciclovir
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24

Ganglia, sympathetic
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27

Gangrene
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Gases
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Gastrectomy
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30

Gastric emptying
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Gastric mucosa
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)

Gastritis
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Gastroduodenal artery
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31

Gastroesophageal reflux
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)

Gastrointestinal motility
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27

Gastrointestinal neoplasms
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30

Gastrointestinal system
Adult-onset dermatomyositis with severe gastrointestinal manifestations: case report and review of the literature (Eshraghi et al). 1998;123:356-8 (Brief clin. rep.)

Gastrointestinal transit
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9

Gastropexy
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57

Gastrostomy
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)

Gender; *see* Sex

Gene therapy
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24

Genes, p53
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Genetic screening
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Genitofemoral nerves
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Giant lymph node hyperplasia
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)

Glomerular filtration rate
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Glucagon
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Glucocorticoids
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Gluconeogenesis
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20

Glucose
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95

Glutamic-oxaloacetic transaminase; *see* Aspartate aminotransferase

Glutamic-pyruvate transaminase; *see* Alanine aminotransferase

Glutamine
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9

Goiter, nodular
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Graft rejection
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406

Graft survival
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)

Granulocytes
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Granuloma
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)

Growth substances
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Guinea pigs
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

H

Hamsters
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Headache
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Health care costs
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20 (Editorial)
Cost-effectiveness analysis in surgery (Finlayson and Birkmeyer). 1998;123:151-6

Health care systems; *see* Delivery of health care

Heart
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304

Heart, mechanical
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31

Heart failure, congestive
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Heart rate
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304

Heart surgery
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304

Heart-lung machine; *see* Heart, mechanical

Helium
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Hemangioendothelioma
External jugular varix with an intravascular hemangioendothelioma (Lau and Cheng). 1998;123:359-61 (Brief clin. rep.)

Hematoma
Delayed splenic hematoma: an injury in evolution

(DiGiacomo et al). 1998;123:478-9 (Brief clin. rep.)

Hemodialysis
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Hemodynamics
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Successful treatment of delayed splenic rupture with splenic artery embolization (Firstenberg et al). 1998;123:584-6 (Brief clin. rep.)
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Hemoglobins
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95

Hemorrhage
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Management of pancreaticoduodenal artery aneurysms presenting as catastrophic intraabdominal bleeding (Neschis et al). 1998;123:8-12
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Hemostasis
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Heparin
Profound hypothermic circulatory arrest for giant intracranial aneurysms: low systemic heparinization and heparin-coated circuits (Morishita et al). 1998;123:245-6 (Brief clin. rep.)

Hepatectomy
Advantage of preoperative portal vein occlusion for hepatectomy that exceeds portal vein occluded lobes (Kameoka et al). 1998;123:545-53
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Anatomic resection for severe liver trauma (Strong et al). 1998;123:251-7
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Hepatic resection for bilobar multicentric hepatocellular carcinoma: Is it justified? (Wu et al). 1998;123:270-7
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Hepatic artery
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Hepatic blood flow; *see* Liver circulation

Hepatic duct, common
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Hepatic transplantation; *see* Liver transplantation

Hepatic veins
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Hepatitis B virus
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9

Hepatitis C viruses
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9

Hepatoblastoma
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Hepatocellular carcinoma; *see* Hepatoma

Hepatolithiasis
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6

Hepatoma
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24
Effect of alcohol abuse on polyamine metabolism in hepatocellular carcinoma and noncancerous hepatic tissue (Kubo et al). 1998;123:205-11
Hepatic resection for bilobar multicentric hepatocellular carcinoma: Is it justified? (Wu et al). 1998;123:270-7
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Hereditary diseases
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Hernia, diaphragmatic
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10

Hernia, inguinal
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Herniorrhaphy
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6
Herpesviridae infections
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)
Heterotopic tissue; *see* **Choristoma**
Hill's posterior gastropexy; *see* **Gastropexy**
HIV
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)
Hormones
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50
Hospitalization
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Human immunodeficiency virus; *see* **HIV**
Hydrocortisone
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Hydroxyproline
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5
Hyperamylasemia
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10
Hyperbilirubinemia
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Hypercortisolism; *see* **Adrenal gland hyperfunction**
Hyperemia
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44
Hyperglycemia
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Hyperparathyroidism
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)
Hyperplasia
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Localized versus systemic angiotensin II receptor inhibition of intimal hyperplasia in experimental vein grafts by the specific angiotensin II receptor inhibitor L158,809 (Fulton et al). 1998;123:218-27
Shear stress induces transforming growth factor–beta$_1$ release by endothelial cells (Cucina et al). 1998;123:212-7
Hypertension
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)
Hyperthyroidism
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7
Hypertrophy
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Hypoparathyroidism
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7
Hypotension
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)
Hypothermia
Profound hypothermic circulatory arrest for giant intracranial aneurysms: low systemic heparinization and heparin-coated circuits (Morishita et al). 1998;123:245-6 (Brief clin. rep.)
Hypoxia; *see* **Anoxia**

I

Ileum
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6
Iliac artery
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Ilipsoas muscle
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)
Immune system
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101
Immunity
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell

et al). 1998;123:485-95

Immunohistochemistry
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Immunoscintigraphy, radiolabeled; *see* Radioimmunodetection

Immunosuppression
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Infant
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Infant, newborn
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10

Infection
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Inflammation
Adult-onset dermatomyositis with severe gastrointestinal manifestations: case report and review of the literature (Eshraghi et al). 1998;123:356-8 (Brief clin. rep.)
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Informed consent
The readability of currently used surgical/procedure consent forms in the United States (Hopper et al). 1998;123:496-503

Infusion pumps
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Infusions, intra-arterial
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Innominate veins; *see* Brachiocephalic veins

Inspissated bile syndrome
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)

Insufflation
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Insulin
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Insulin-like growth factor I
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Intensive care, neonatal
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10

Interleukin-1
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

Interleukin-6
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Internship and residency
The effects of programmatic change on resident motivation (Chalabian and Bremner). 1998;123:511-7

Intestinal neoplasms
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31

Intestinal obstruction
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
The gargantuan marginal artery sign: a case report of averting

Intestinal obstruction—cont'd
total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)

Intestinal perforation
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Intestinal transplantation
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Intestine, large
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64

Intestine, small
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)

Intracellular adhesion molecules; *see* **Cell adhesion molecules**

Intracranial aneurysm; *see* **Cerebral aneurysm**

Intrahepatic ducts; *see* **Bile ducts**

Intraoperative care
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Intraoperative localization of neuroblastoma in children with ^{123}I -or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Intraoperative complications
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40

Iodine radioisotopes
Intraoperative localization of neuroblastoma in children with ^{123}I -or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7

Ischemia
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Adult-onset dermatomyositis with severe gastrointestinal manifestations: case report and review of the literature (Eshraghi et al). 1998;123:356-8 (Brief clin. rep.)
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Ischemia-reperfusion injury; *see* **Reperfusion injury**

Islets of Langerhans transplantation
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406

Isoamylase
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Isograft; *see* **Transplantation, isogeneic**

Isolation perfusion therapy; *see* **Perfusion, regional**

J

Japan
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Jaundice, obstructive; *see* **Cholestasis**

Jejunostomy
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Jejunum
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21

Joint prosthesis
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)

Jugular veins
External jugular varix with an intravascular hemangioendothelioma (Lau and Cheng). 1998;123:359-61 (Brief clin. rep.)
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

K

Kidney
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Kidney failure, chronic
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Kidney transplantation
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)

Korotkov, Nikolai S.
Nikolai S. Korotkov: a story of an unknown surgeon with an immortal name (Konstantinov). 1998;123:371-81

L

Lactates
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Laparoscopy
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Laparotomy
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)

Laryngeal nerves
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Latex
The inflammatory effects of crystalline cholestero! monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

Leg
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Length of stay
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95

Letters
Effect of transfusion on physiologic changes after resuscitation (Smith) (Letter); (Proctor) (Reply). 1998;123:600-2
Hemobilia, infection, bile stasis, and intrahepatic stones in liver transplant recipients (Cetta et al) (Letter); (Dousset and Pitre) (Reply). 1998;123:115-7
Laparoscopic repair of splenic artery aneurysm (Lai et al) (Letter); (Matsumoto et al) (Reply). 1998;123:247-8
Misuse of multivariate analysis (Birkmeyer and Finlayson) (Letter); (Hess et al) (Reply). 1998;123:114-5
On the pharmacologic protection of the liver and intestine during ischemia (Santiago-Delpín). 1998;123:249-50
Preoperative optimization of cardiac function using SvO_2 (Boyd et al) (Letter); (Ziegler and Flancbaum) (Reply). 1998;123:719-20
Thoracic epidural bupivacaine combined with opioid for esophagectomy (Tavernier et al). 1998;123:113-4
Treatment of early onset atherosclerosis (Keilson and Bredenberg) (Letter); (Mingoli and Sapienza) (Reply). 1998;123:720-2
Unexpected action of platelet activating factor antagonism after fluid resuscitation from traumatic shock (Abu-Zidan) (Letter); (Proctor and Fabian) (Reply). 1998;123:248-9

Leucine
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9

Leukocytes
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Lichtenstein mesh repair; *see* **Surgical mesh**

Life support care
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10

Ligation
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)

Limb salvage; *see* **Salvage therapy**

Limbs; *see* **Extremities**

Lipopolysaccharides
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80

Literacy; *see* **Educational status**

Literature
Adult-onset dermatomyositis with severe gastrointestinal manifestations: case report and review of the literature (Eshraghi et al). 1998;123:356-8 (Brief clin. rep.)
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Lithotomy
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6

Liver
Advantage of preoperative portal vein occlusion for hepatectomy that exceeds portal vein occluded lobes (Kameoka et al). 1998;123:545-53
Anatomic resection for severe liver trauma (Strong et al). 1998;123:251-7
Effect of alcohol abuse on polyamine metabolism in hepatocellular carcinoma and noncancerous hepatic tissue (Kubo et al). 1998;123:205-11
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Intrahepatic splenic tissue in a patient with recurrent idiopathic thrombocytopenic purpura (Wekerle et al). 1998;123:596-9 (Brief clin. rep.)

Liver—cont'd
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Liver circulation
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Liver cirrhosis
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86

Liver failure
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86

Liver neoplasms
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Liver regeneration
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20

Liver transplantation
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Lungs
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Lymph
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45

Lymph nodes
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Lymphatic system
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Lymphocytes
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Lymphoma
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90

Lysolecithins; *see* **Lysophosphatidylcholines**

Lysophosphatidylcholines
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

M

Macrophages
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Magnetic resonance imaging
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Malnutrition; *see* **Nutrition disorders**

Mammaplasty
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Mammary arteries
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Managed care programs
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20 (Editorial)

Manometry
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57

Marginal artery sign
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)

Mechanical ventilation; *see* Respiration, artificial

Mediastinal neoplasms
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Mediastinum
Does the mediastinal anatomy complementing azygos lobe facilitate endotracheal balloon rupture of the trachea? (Grismer and Read). 1998;123:243-4 (Brief clin. rep.)

Medicaid
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20 (Editorial)

Melanoma
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Melphalan
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31

Mesenteric arteries
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88

Mesenteric vascular occlusion
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)

Mesh repair; *see* Surgical mesh

Mesocricetus
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Metabolism
Effect of alcohol abuse on polyamine metabolism in hepatocellular carcinoma and noncancerous hepatic tissue (Kubo et al). 1998;123:205-11
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Metaiodobenzylguanidine
Intraoperative localization of neuroblastoma in children with ^{123}i- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7

Metyrapone
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Mexico
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Mice
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Migraine
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Military Medical Academy
The life and death of Professor Alexander P. Borodin: surgeon, chemist, and great musician (Konstantinov). 1998;123:606-16

Mitogens
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Mitomycins
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31

Models, animal; *see* Disease models, animal

Models, theoretic
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Monoclonal antibody; *see* Antibodies, monoclonal

Morbidity
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Anatomic resection for severe liver trauma (Strong et al). 1998;123:251-7
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Mortality
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Anatomic resection for severe liver trauma (Strong et al). 1998;123:251-7
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Safety and efficacy of isolated perfusion of extremities for

Mortality—cont'd
recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Motivation
The effects of programmatic change on resident motivation (Chalabian and Bremner). 1998;123:511-7

Mucous membrane
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Multiple organ failure
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Muscle, smooth, vascular
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60
Shear stress induces transforming growth factor–beta$_1$ release by endothelial cells (Cucina et al). 1998;123:212-7
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Muscle contraction
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60
Localized versus systemic angiotensin II receptor inhibition of intimal hyperplasia in experimental vein grafts by the specific angiotensin II receptor inhibitor L158,809 (Fulton et al). 1998;123:218-27
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Music
The life and death of Professor Alexander P. Borodin: surgeon, chemist, and great musician (Konstantinov). 1998;123:606-16

Mutation
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Mycoplasma pneumoniae
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Myeloperoxidase; *see* Peroxidase

Myocardial ischemia
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304

Myointimal hyperplasia; *see* Hyperplasia

Myosin-light-chain kinase
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

N

Narcotics
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Necrosis
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)
The gargantuan marginal artery sign: a case report of averting total necrosis of the small intestine (Haigh and Temple). 1998;123:362-4 (Brief clin. rep.)
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Nelson syndrome
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50

Neonate; *see* Infant, newborn

Neoplasm invasiveness
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Neoplasm metastasis
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative

protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Neoplasm recurrence, local
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Hepatic resection for bilobar multicentric hepatocellular carcinoma: Is it justified? (Wu et al). 1998;123:270-7
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30

Neoplasm staging
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9

Neoplasms
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33

Neoplasms, experimental
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Neoplasms, glandular and epithelial
External jugular varix with an intravascular hemangioendothelioma (Lau and Cheng). 1998;123:359-61 (Brief clin. rep.)

Neoplasms, multiple endocrine
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Neoplasms, vascular tissue
External jugular varix with an intravascular hemangioendothelioma (Lau and Cheng). 1998;123:359-61 (Brief clin. rep.)
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Neovascularization
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93

Nerve grafting
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Nerve regeneration
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Neuroblastoma
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7

Neurocndocrine system; *see* **Neurosecretory systems**

Neuropeptides
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Neurosecretory systems
Neuroendocrine tumor of the common hepatic duct: a rare cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95

Neutrophils
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Serum proteins facilitate neutrophil induction of endothelial leukocyte adhesion molecule 1 (Van den Bogaerde et al). 1998;123:199-204
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Nissen fundoplication; *see* **Fundoplication**

Nitric oxide
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Nitroglycerin
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95

Nitrous oxide
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Non-heart-beating donors; *see* **Tissue donors**

Non-Hodgkin's lymphoma; *see* **Lymphoma**

Norepinephrine
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Normoglycemia
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406

Nottingham Health Profile questionnaires; *see* **Questionnaires**

Nurseries
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10

Nutrition
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Nutrition disorders
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

O

Obstructive jaundice; *see* Cholestasis
Oddi's sphincter
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)
Operating rooms
The effects of programmatic change on resident motivation (Chalabian and Bremner). 1998;123:511-7
Organ donors; *see* Tissue donors
Organ preservation
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Organ procurement
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)
Organ transplantation
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Ornithine decarboxylase
Effect of alcohol abuse on polyamine metabolism in hepatocellular carcinoma and noncancerous hepatic tissue (Kubo et al). 1998;123:205-11
Orthotopic transplantation; *see* Transplantation, homologous
Outcome assessment
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30
Oxidative burst; *see* Respiratory burst
Oxygen
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42
Oxygen consumption
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38
Oxygenators
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

P

Pain
Management of pancreaticoduodenal artery aneurysms presenting as catastrophic intraabdominal bleeding (Neschis et al). 1998;123:8-12
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6
Palliative treatment
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Pancreas
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Pancreas transplantation
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95
Pancreatic ducts
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Pancreatic neoplasms
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20
Pancreaticobiliary junction
Diagnosis of anomalous pancreaticobiliary junction: value of magnetic resonance cholangiopancreatography (Sugiyama et al). 1998;123:391-7
Pancreaticoduodenal artery aneurysms
Management of pancreaticoduodenal artery aneurysms presenting as catastrophic intraabdominal bleeding (Neschis et al). 1998;123:8-12
Pancreaticoduodenectomy
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Pancreaticojejunostomy
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Neuroendocrine tumor of the common hepatic duct: a rare

cause of extrahepatic jaundice in adolescence (Bembenek et al). 1998;123:712-5 (Brief clin. rep.)

Pancreatitis
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Pancreatography
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)

Papillectomy
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)

Paralysis
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Parasympathectomy
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Parasympathetic nervous system
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Parathyroid glands
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Parathyroid neoplasms
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Parenteral nutrition, total
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Pectoralis muscles
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)

Pelvic neoplasms
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72

Pelvic nerve
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Pentagastrin
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Peptic ulcer
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)

Peptides
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Perfusion
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Perfusion, regional
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Pericardial effusion
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)

Pericardium
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)

Peripheral vascular diseases
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50

Peritoneal effusion; *see* Ascitic fluid

Peritoneal neoplasms
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Peritoneum
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31

Peroxidase
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

Phenylalanine
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Phenytoin
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93

Pheochromocytoma
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)

Phosphatases
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60

Phospholipases
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

Phosphorylation
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Pigs; *see* Swine

Placebos
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Plasma
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Alpha-trinositol reduces edema formation at the site of scald

Plasma—cont'd
injury (Ferrara et al). 1998;123:36-45
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Plasminogen activator, tissue-type; *see* Alteplase

Platelet aggregation inhibitors
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Platelet-derived growth factor
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9

Pleural effusion
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)

Ploidies
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Pneumonia
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Pneumothorax
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Polyamines
Effect of alcohol abuse on polyamine metabolism in hepatocellular carcinoma and noncancerous hepatic tissue (Kubo et al). 1998;123:205-11

Polyethylenes
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)

Polymerase chain reaction
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80

Polymorphonuclear leukocytes; *see* Neutrophils

Polystyrenes
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

Polytetrafluoroethylene
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Portal vein
Advantage of preoperative portal vein occlusion for hepatectomy that exceeds portal vein occluded lobes (Kameoka et al). 1998;123:545-53
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Portasystemic shunt, surgical
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66

Positive end-expiratory pressure; *see* Positive-pressure respiration

Positive-pressure respiration
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Postoperative care
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Postoperative complications
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Advantage of preoperative portal vein occlusion for hepatectomy that exceeds portal vein occluded lobes (Kameoka et al). 1998;123:545-53
Anatomic resection for severe liver trauma (Strong et al). 1998;123:251-7
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66
Pancreatic transplantation reverses endothelial dysfunction in experimental diabetes mellitus (Pieper et al). 1998;123:89-95
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al).

1998;123:278-86
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Preoperative care
Advantage of preoperative portal vein occlusion for hepatectomy that exceeds portal vein occluded lobes (Kameoka et al). 1998;123:545-53
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Prognosis
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

Program development
The effects of programmatic change on resident motivation (Chalabian and Bremner). 1998;123:511-7

Prospective studies
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Prostaglandin E_2; *see* **Dinoprostone**

Prostaglandins
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63

Protein kinases
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Protein p53
Microsatellite instability in sporadic carcinomas of the proximal colon: association with diploid DNA content, negative protein expression of p53, and distinct histomorphologic features (Forster et al). 1998;123:13-8

Pulmonary embolism
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4

Purpura, thrombocytopenic, idiopathic
Intrahepatic splenic tissue in a patient with recurrent idiopathic thrombocytopenic purpura (Wekerle et al). 1998;123:596-9 (Brief clin. rep.)

Pyloric stenosis
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4

Pylorus
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Q

Quality of life
Postoperative functional evaluation of pylorus-preserving gastrectomy for early gastric cancer compared with conventional distal gastrectomy (Imada et al). 1998;123:165-70

Quality-adjusted life years
Cost-effectiveness analysis in surgery: Who will use it and how? (Rhodes and Rhodes). 1998;123:119-20 (Editorial)

Questionnaires
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95
Treatment of superficial cancer of the esophagus: a summary of responses to a questionnaire on superficial cancer of the esophagus in Japan (Kodama and Kakegawa). 1998;123:432-9

R

Radiation injuries
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)

Radiography
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57

Radioimmunodetection
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7

Radiotherapy
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)

Radiotherapy—cont'd
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Rats
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83

Rats, Sprague-Dawley
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Reading
The readability of currently used surgical/procedure consent forms in the United States (Hopper et al). 1998;123:496-503

Receptors, angiotensin
Localized versus systemic angiotensin II receptor inhibition of intimal hyperplasia in experimental vein grafts by the specific angiotensin II receptor inhibitor L158,809 (Fulton et al). 1998;123:218-27

Receptors, glucagon
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Receptors, insulin
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20

Receptors, leukocyte-antigen
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Recombinant human growth hormone
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Rectal neoplasms
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Rectum
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64

Recurrence
Experimental assessment of the risk of tumor recurrence after laparoscopic surgery (Le Moine et al). 1998;123:427-31
Hepatic resection for bilobar multicentric hepatocellular carcinoma: Is it justified? (Wu et al). 1998;123:270-7
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6
Intraoperative localization of neuroblastoma in children with ^{123}I- or ^{125}I-radiolabeled metaiodobenzylguanidine (Martelli et al). 1998;123:51-7
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30

Recurrent laryngeal nerve
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Reflux
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44
An unusual cause of dysphagia after laparoscopic fundoplication: a report on two cases (Orsoni et al). 1998;123:241-2 (Brief clin. rep.)

Reflux esophagitis; *see* **Esophagitis, peptic**

Regeneration
Growth of intraportally transplanted islets under liver regeneration stimulus and restoration of normoglycemia in streptozocin-diabetic rats (Morsiani et al). 1998;123:398-406
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20

Reinnervation
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Renal artery
Cyclosporine, but not FK506, selectively induces renal and coronary artery smooth muscle contraction (Epstein et al). 1998;123:456-60
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)

Renal veins
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)

Reoperation
Inspissated bile syndrome followed by choledochal cyst formation (Lai et al). 1998;123:706-8 (Brief clin. rep.)
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7
Treatment of hepatoblastoma: less extensive hepatectomy

after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Reperfusion
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Reperfusion injury
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Research
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24
Ethics in surgical research (Leffall). 1998;123:603-5 (Research rev.)
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9

Respiration, artificial
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Respiratory burst
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Respiratory distress syndrome, adult
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Respiratory insufficiency
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Respiratory system
A randomized, prospective, blinded comparison of postoperative pain, metabolic response, and perceived health after laparoscopic and small incision cholecystectomy (Squirrell et al). 1998;123:485-95

Restenosis
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65

Resuscitation
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Retroperitoneal neoplasms
Diarrhea after resection of advanced abdominal neuroblastoma: a common management problem (Rees et al). 1998;123:568-72
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)

Retroviridae
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24

Reverse transcriptase
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80

Review literature
Adult-onset dermatomyositis with severe gastrointestinal manifestations: case report and review of the literature (Eshraghi et al). 1998;123:356-8 (Brief clin. rep.)
Mediastinal parathyroid cyst causing persistent hyperparathyroidism: case report and review of the literature (Jarnagin and Clark). 1998;123:709-11 (Brief clin. rep.)

Risk factors
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Is laparoscopic cholecystectomy hazardous for gallbladder cancer? (Suzuki et al). 1998;123:311-4
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

RNA, messenger
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80

Russia
Nikolai S. Korotkov: a story of an unknown surgeon with an immortal name (Konstantinov). 1998;123:371-81

S

Safety
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Saline; *see* Sodium chloride

Salmonella typhi
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Salvage therapy
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Saphenous vein
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Sarcoma
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71

Sarcoma, Kaposi's
Pleural effusion as the presentation for primary effusion lymphoma (Vu et al). 1998;123:589-91 (Brief clin. rep.)

Scalds
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45

Septicemia
Emphysematous gastritis (Bashour et al). 1998;123:716-8

Septicemia—cont'd
(Brief clin. rep.)
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Serum proteins; *see* Blood proteins

Sex
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21

Short bowel syndrome
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90

Shouldice herniorrhaphy; *see* Herniorrhaphy

Signal transduction
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Skin neoplasms
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Skin transplantation
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80

Small bowel; *see* Intestine, small

Smoking
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5

Sodium chloride
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93

Sodium diphenylhydantoin; *see* Phenytoin

Soft tissue neoplasms
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71

Soft tissue sarcoma; *see* Sarcoma

Somatostatin
Variable effect of streptozotocin-diabetes on the growth of hamster pancreatic cancer (H2T) in the Syrian hamster and nude mouse (Fisher et al). 1998;123:315-20

Spasm
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Sphenoid sinus
Laparoscopic bilateral adrenalectomy for persistent Cushing's disease after transsphenoidal surgery (Lanzi et al). 1998;123:144-50

Sphincterotomy
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)

Spinal nerves
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27

Splanchnic circulation
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Spleen
Intrahepatic splenic tissue in a patient with recurrent idiopathic thrombocytopenic purpura (Wekerle et al). 1998;123:596-9 (Brief clin. rep.)
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Splenectomy
Intrahepatic splenic tissue in a patient with recurrent idiopathic thrombocytopenic purpura (Wekerle et al). 1998;123:596-9 (Brief clin. rep.)

Splenic artery
Successful treatment of delayed splenic rupture with splenic artery embolization (Firstenberg et al). 1998;123:584-6 (Brief clin. rep.)

Splenic rupture
Delayed splenic hematoma: an injury in evolution (DiGiacomo et al). 1998;123:478-9 (Brief clin. rep.)
Successful treatment of delayed splenic rupture with splenic artery embolization (Firstenberg et al). 1998;123:584-6 (Brief clin. rep.)

Stenosis
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Stents
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)

Steroids
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Stomach
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)

Stomach neoplasms
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30

Streptozotocin diabetes; *see* Diabetes mellitus, experimental

Stress
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8
Hepatic insulin extraction after major hepatectomy (Kogut et al). 1998;123:415-20
Shear stress induces transforming growth factor–beta$_1$ release by endothelial cells (Cucina et al). 1998;123:212-7
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Stroke; *see* Cerebrovascular disorders

Subclavian artery
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)

Subclavian vein
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief

clin. rep.)

Substance abuse
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)

Substance P
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

Surgical flaps
Repair of reconstructed gastric tube bronchial fistulas after operation for esophageal cancer by transposing a pedicled pectoralis major muscle flap: report of three successful cases (Saito et al). 1998;123:365-8 (Brief clin. rep.)

Surgical injury; *see* **Wounds and injuries**

Surgical mesh
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Surgical technique
Surgical technique. 1998;123:351-5

Survival
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Aggressive surgical approaches to hilar cholangiocarcinoma: hepatic or local resection? (Miyazaki et al). 1998;123:131-6
Carotid endarterectomy and contralateral internal carotid artery occlusion: perioperative risks and long-term stroke and survival rates (Ballotta et al). 1998;123:234-40
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Evidence of survival benefit of extended (D2) lymphadenectomy in Western patients with gastric cancer based on a new concept: a prospective long-term follow-up study (Roukos et al). 1998;123:573-8
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Hepatic resection for bilobar multicentric hepatocellular carcinoma: Is it justified? (Wu et al). 1998;123:270-7
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Surgical results in patients with dual hepatitis B– and C–related hepatocellular carcinoma compared with hepatitis B– or C–related hepatocellular carcinoma (Chen et al). 1998;123:554-9
Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14

Suture techniques
Management of continuous anastomosis of pancreatic duct and jejunal mucosa after pancreaticoduodenectomy: historical study of 300 patients (Tsuji et al). 1998;123:617-21

Swine
Age-related differences in response to neutrophil-mediated reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91

Sympathectomy
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

T

Tensile strength
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93

Tetanus toxin
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Thiotepa
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Thoracic duct
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)

Thoracic injuries
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)

Thoracoabdominal aortic aneurysm; *see* **Aortic aneurysm, abdominal**

Thoracostomy
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Thrombin
Thrombin-induced vasospasm: cellular signaling mechanisms (Jerius et al). 1998;123:46-50

Thromboembolism
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50

Thrombophlebitis
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Thrombosis
The acutely ischemic extremity after kidney transplant: an approach to management (Humar et al). 1998;123:344-50
Mesenteric arterioportal shunt after hepatic artery interruption (Iseki et al). 1998;123:58-66

Thrombosis, venous; *see* **Thrombophlebitis**

Thromboxane synthetase
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72

Thrombus
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4

Thymidine kinase
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24

Thyroid diseases
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Thyroid hormones
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7

Thyroid neoplasms
A false-positive diagnosis of C-cell hyperplasia in a member of a family with multiple endocrine neoplasia type 2A and familial colonic polyposis (Gallegos-Martínez et al). 1998;123:587-8 (Brief clin. rep.)
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Thyroidectomy
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Thyroiditis
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7

Tissue donors
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8
Use of split horseshoe kidney for transplantation (Shen et al). 1998;123:475-7 (Brief clin. rep.)

Tissue preservation
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8

Tissue-type plasminogen activator; *see* **Alteplase**

T-lymphocytes
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Usefulness of metyrapone treatment to suppress cancer metastasis facilitated by surgical stress (Deguchi et al). 1998;123:440-9

Tobacco
Abdominal aortic aneurysms and malignant neoplasia: double jeopardy (Valentine et al). 1998;123:228-33
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5

Toes
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Tomography, x-ray computed
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)
Polyethylene wear debris presenting as a retroperitoneal tumor (Adelman et al). 1998;123:111-2 (Brief clin. rep.)
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Toxicity
Are hepatomas a good target for suicide gene therapy? an experimental study in rats using retroviral-mediated transfer of thymidine kinase gene (Nagy et al). 1998;123:19-24
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43

Trachea
Does the mediastinal anatomy complementing azygos lobe facilitate endotracheal balloon rupture of the trachea? (Grismer and Read). 1998;123:243-4 (Brief clin. rep.)

Tracheostomy
Autogenous patching of a kinked internal carotid artery (Gates et al). 1998;123:483-4 (Brief clin. rep.)

Transcription factors
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8

Transforming growth factor beta
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Shear stress induces transforming growth factor–beta$_1$ release by endothelial cells (Cucina et al). 1998;123:212-7

Transluminal angioplasty; *see* **Angioplasty, balloon**

Transplantation, autologous
Extrinsic innervation modulates canine jejunal transport of glutamine, alanine, leucine, and glucose (Foley et al). 1998;123:321-9
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Intrahepatic splenic tissue in a patient with recurrent idiopathic thrombocytopenic purpura (Wekerle et al). 1998;123:596-9 (Brief clin. rep.)
A novel therapeutic strategy for the management of idiopathic chylopericardium and chylothorax (Scholten et al). 1998;123:369-70 (Brief clin. rep.)

Transplantation, homologous
Effect of thromboxane synthetase inhibitor on non-heart-beating donors in rat orthotopic liver transplantation (Soejima et al). 1998;123:67-72
Pretreatment of donor stimulator cells by 16,16 dimethyl prostaglandin E_2 influences the recipient immune response (Chung et al). 1998;123:171-80
Prolonged hepatic warm ischemia in non-heart-beating donors: protective effects of FK506 and a platelet activating factor antagonist in porcine liver transplantation (Takada et al). 1998;123:692-8

Transplantation, isogeneic
Carolina rinse attenuates postischemic microvascular injury in rat small bowel isografts (Massberg et al). 1998;123:181-90

Trauma; *see* **Wounds and injuries**

Treatment outcome
Congenital diaphragmatic hernia survival and use of extracorporeal life support at selected level III nurseries with multimodality support (Reickert et al). 1998;123:305-10
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7
Gastric carcinoma with pyloric stenosis (Watanabe et al). 1998;123:330-4
Hepatic resection for bilobar multicentric hepatocellular carcinoma: Is it justified? (Wu et al). 1998;123:270-7
Hepatolithiasis: outcome of cholangioscopic lithotomy and dilation of bile duct stricture (Yoshida et al). 1998;123:421-6
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Locally recurrent soft tissue sarcoma of the extremities (Midis et al). 1998;123:666-71
Long-term results of classic antireflux surgery in 152 patients with Barrett's esophagus: clinical, radiologic, endoscopic, manometric, and acid reflux test analysis before and late after operation (Csendes et al). 1998;123:645-57
Primary pancreatic lymphoma (Bouvet et al). 1998;123:382-90
Response of patients with cirrhosis who have undergone partial hepatectomy to treatment aimed at achieving supranormal oxygen delivery and consumption (Ueno et al). 1998;123:278-86
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Safety and efficacy of isolated perfusion of extremities for recurrent tumor in elderly patients (Ariyan and Poo). 1998;123:335-43
Short-term outcome after mesh of Shouldice herniorrhaphy: a randomized, prospective study (Barth et al). 1998;123:121-6

Total gastrectomy is not necessary for proximal gastric cancer (Harrison et al). 1998;123:127-30
Treatment of hepatoblastoma: less extensive hepatectomy after effective preoperative chemotherapy with cisplatin and Adriamycin (Seo et al). 1998;123:407-14
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Triiodothyronine
Euthyroid sick syndrome, associated endocrine abnormalities, and outcome in elderly patients undergoing emergency operation (Girvent et al). 1998;123:560-7

alpha-Trinositol
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45

Tumor necrosis factor
Cytokine-mediated differential induction of hepatic activator protein-1 genes (Wang and Evers). 1998;123:191-8
First experience and technical aspects of isolated liver perfusion for extensive liver metastasis (Oldhafer et al). 1998;123:622-31
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Splanchnic origin of cytokines in a porcine model of mesenteric ischemia-reperfusion (Bathe et al). 1998;123:79-88
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101

Tunica intima
Formation of myointimal hyperplasia and cytokine production in experimental vein grafts (Sterpetti et al). 1998;123:461-9
Localized versus systemic angiotensin II receptor inhibition of intimal hyperplasia in experimental vein grafts by the specific angiotensin II receptor inhibitor L158,809 (Fulton et al). 1998;123:218-27
Shear stress induces transforming growth factor–beta$_1$ release by endothelial cells (Cucina et al). 1998;123:212-7

Typhoid
Twenty-five years of experience in the surgical treatment of perforation of the ileum caused by *Salmonella typhi* at the General Hospital of Mexico City, Mexico (Athié et al). 1998;123:632-6

Tyrosine hydroxylase
Extrinsic intestinal reinnervation after canine small bowel autotransplantation (Sugitani et al). 1998;123:25-35

U

Ulcer
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)

Ultrasonography
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4
Endometriosis of the liver (Chung et al). 1998;123:106-8 (Brief clin. rep.)
Preoperative staging of colorectal cancer by a 15 MHz ultrasound miniprobe (Hamada et al). 1998;123:264-9
Usefulness of three-dimensional computed tomography for anatomic liver resection: sub-subsegmentectomy (Togo et al). 1998;123:73-8

Upper extremity; *see* Arm

Urea
Systemic and splanchnic metabolic response to exogenous human growth hormone (Dahn and Lange). 1998;123:528-38

Urine
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10

V

Vagus nerve
Calcitonin gene-related peptide and spinal afferents partly mediate postoperative colonic ileus in the rat (Zittel et al). 1998;123:518-27

Varicose veins
External jugular varix with an intravascular hemangioendothelioma (Lau and Cheng). 1998;123:359-61 (Brief clin. rep.)
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Varix; *see* Varicose veins

Vascular patency
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4
Risk factors for restenosis after balloon angioplasty in focal iliac stenosis (Yasuhara et al). 1998;123:658-65
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Vascular resistance
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Vasoconstriction
Gangrene of the back, buttocks, fingers, and toes caused by transient cold agglutinemia induced by a cooling blanket in a patient with sepsis (Talisman et al). 1998;123:592-5 (Brief clin. rep.)

Vasodilation
Dexamethasone-induced congestive heart failure in a patient with dilated cardiomyopathy caused by occult pheochromocytoma (Kothari and Kisken). 1998;123:102-5 (Brief clin. rep.)

Vater's ampulla
Endoscopic resection of duodenal ampulla with a transparent plastic cap (Izumi et al). 1998;123:109-10 (Brief clin. rep.)

Vein graft; *see* Blood vessel prosthesis

Vena cava, superior
Unilateral breast enlargement: four case reports of an "unusual" presentation of central vein stenosis in patients undergoing hemodialysis (Phillips et al). 1998;123:699-701 (Brief clin. rep.)

Vena cava filters
Duplex-directed vena caval filter placement: report of initial experience (Neuzil et al). 1998;123:470-4

Venous graft; *see* Blood vessel prosthesis

Venous obstruction
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Venous pressure
Saphenectomy in the presence of chronic venous obstruction (Raju et al). 1998;123:637-44

Venous thrombosis; *see* Thrombophlebitis

Ventilation
Beneficial effects of chest tube drainage of pleural effusion in acute respiratory failure refractory to positive end-expiratory pressure ventilation (Talmor et al). 1998;123:137-42

Ventricular function, left
Age-related differences in response to neutrophil-mediated

Ventricular function, left—cont'd
reperfusion injury in the neonatal piglet heart (Keller et al). 1998;123:294-304
Viability; *see* Cell survival
Vimentin
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Vocal cord paralysis
Total thyroidectomy for benign thyroid disease (Liu et al). 1998;123:2-7
Volvulus; *see* Intestinal obstruction

W

Warm ischemia; *see* Ischemia
Water-electrolyte balance
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45
The inflammatory effects of crystalline cholesterol monohydrate in the guinea pig gallbladder in vivo (Prystowsky and Rege). 1998;123:258-63
Wound healing
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44
Diphenylhydantoin sodium promotes early and marked angiogenesis and results in increased collagen deposition and tensile strength in healing wounds (DaCosta et al). 1998;123:287-93
Less collagen production in smokers (Jorgensen et al). 1998;123:450-5
Wound metastasis after laparoscopy with different insufflation gases (Neuhaus et al). 1998;123:579-83
Wounds, gunshot
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Wounds, nonpenetrating
Delayed splenic hematoma: an injury in evolution (DiGiacomo et al). 1998;123:478-9 (Brief clin. rep.)
Successful primary repair of complete pancreatic disruption caused by blunt abdominal trauma: a report of two cases (Hashimoto et al). 1998;123:702-5 (Brief clin. rep.)
Successful treatment of delayed splenic rupture with splenic artery embolization (Firstenberg et al). 1998;123:584-6 (Brief clin. rep.)
Wounds and injuries
Alpha-trinositol reduces edema formation at the site of scald injury (Ferrara et al). 1998;123:36-45
Anatomic resection for severe liver trauma (Strong et al). 1998;123:251-7
A case of axillary arterial bleeding caused by radiation-induced chest wall ulcer after radiotherapy for carcinoma of the breast: extraanatomic bypass grafting for upper limb salvage (Urayama et al). 1998;123:480-2 (Brief clin. rep.)
Delayed splenic hematoma: an injury in evolution (DiGiacomo et al). 1998;123:478-9 (Brief clin. rep.)
Depression of peritoneal fibrinolysis during operation is a local response to trauma (Holmdahl et al). 1998;123:539-44
Does the mediastinal anatomy complementing azygos lobe facilitate endotracheal balloon rupture of the trachea? (Grismer and Read). 1998;123:243-4 (Brief clin. rep.)
Emphysematous gastritis (Bashour et al). 1998;123:716-8 (Brief clin. rep.)
The high morbidity of colostomy closure after trauma: further support for the primary repair of colon injuries (Berne et al). 1998;123:157-64
Hyperamylasemia after cardiopulmonary bypass: pancreatic cellular injury or impaired renal excretion of amylase? (Paajanen et al). 1998;123:504-10
Pelvic nerve grafts restore bladder function in denervated rats (Kono et al). 1998;123:672-8
Transient inhibition of CD18-dependent leukocyte functions after hemorrhage and polymicrobial sepsis (Lyden et al). 1998;123:679-91
Trauma-induced alterations in macrophage function (McCarter et al). 1998;123:96-101
